VENISON VELVET TEMPERAMENT

10th & final

Annual Sire Bull Auction

On the property of M.I. and B.M Hagen

Sunday 17th January 2021 — 2pm

Welcome for inspection from 1pm

Connemara Wapiti ● Murray Hagen 021 220 7889

Rural Livestock ● Craig North 027 473 0864 ● Adam Whaanga 027 418 3438

Auctioneer: Tony Pryde

Cover Photograph taken by Sandra Stevens of Connemara Sire 63/10

It was the cover photo of the December issue of Deer Industry News and also an entry in the 2020 MSD Animal Health photo awards

Connemara History

Welcome to Connemara and our 10th Annual Sire Bull Auction.

The Connemara herd was originally purchased from Chris Whyte. The History of this Fiordland Wapiti Stud dates back to Chris Whyte's father, Robert, who started farming Wapiti with licence N°31. Most of the Whyte family bloodstock were sourced from the park through the late Evan Meredith's Herd in the early eighties. Chris Whyte started selling Bulls in the 1990's from his farm at
Orepuke before moving to Te Anau around 2000.

During our time with the stud we have been selecting Stud Sires and breeding for deep, compact body conformation, high growth rates, great temperament and well above average velvet weights.

It is with much regret that this is our last Connemara Wapiti Bull Sale. Time marches on and we decided to pull the pin. As enjoyable as it has been over these many years taking a stud to the top Bev finally gets her way for me to retire. Well not really retire, just downsize. Age is catching up with me and as Bev reminds me there's probably room and time for other things before I get too old to do them.

Our main Sires Meads, Forecaster and 63 /10, along with 2 Year Olds and Male Fawns have been sold to Clachanburn. If you like Connemara animals John Falkner will have Bulls for sale next year. Our stud Females were purchased by Landcorp Freestone Farm.

The New Zealand Wapiti is a fantastic animal, but I am probably preaching to the converted. The latest results proved that our growth rates and dollar returns are a no brainer. It is fantastic to read in the latest Deer Industry News that all the BV results have been proven, through trials, that they are certainly the way ahead for industry returns. I congratulate all the people in Deer Select and the stud breeders. It has certainly put the Wapiti breed where it should be – right at the top.

With these trying times with COVID-19 and our diminished returns our Wapiti breed has never been so important in holding up our incomes. Our Labour government seems to have some strange ideas about the economy. I would have thought that the agriculture sector would be the last to be hit hard by them, but I was wrong; they don't seem to see much sense with some strange ideas around the latest water plan. I think they have been brainwashed by some strange thinking idealistic people. I urge all farmers to ignore all resource consents requirements for it is just another bureaucratic tax on farmers. And remember we are all farmers that love the land and look after it, not what is portrayed in the media. Remember the world needs food.

All the best for your purchases at our sale and I hope to catch up with you afterwards for a well-deserved drink.

Cheers

Murray, Bev, Sam and Krysta

Connemara Wapiti

2nd January 2021

STANDARDISATION OF CATALOGUE INFORMATION

A consensus has been agreed to between Wapiti Breeders regarding parameters for performance data entered in our sale catalogues. We have all agreed to use standardised weighing times. Growth rates will be based on actual birth dates (or derived from foetal aging), estimated birth weights of 17kg for male calves and 15.5kg for female calves and their 12mt/December weight.

CONDITIONS OF SALE

1. The sale will be conducted by Rural Livestock Ltd (RLL) with the conditions of sale as set down by the New Zealand Stock and Stations Association, a copy of which is exhibited in the office on sale day
2. Animals will be offered as catalogued, subject to final draft
3. Intending purchasers are required to register prior to the commencement and advise appropriate billing instructions
4. Terms are strictly cash unless prior arrangements are made with RLL. All accounts are due for payment within 14 days
5. Each lot shall become the property and responsibility of the purchaser on the fall of the hammer
6. Sale will be conducted GST exclusive
7. All purchasers must give complete written instructions to the office at completion of sale using delivery slip
8. A buyers commission of 4% rebate is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements are made with RLL 24 hours prior to sale commencement

DISCLAIMER

All details and descriptions as to stock referred to in this catalogue have been supplied to Rural Livestock Ltd by the vendor and have not been independently verified by RLL. RLL and its employees and agents make no representations of warranties of acknowledgement of any kind whatsoever in relation to any part of this catalogue including but not limited to accuracy of completeness of details and descriptions o stock and other contents. Purchasers, advisors and all other persons viewing or dealing with stock must make their own assessment of the stock and information in the catalogue.

GUARANTEE If a bull is proven to be sterile within 12 months of purchase it will be replaced by an animal or similar quality or the purchaser shall receive a credit to the value of the original purchase to be used at sale. This guarantee refers specifically to sterility and not to any condition due to accident or illness. No claims after 12 months of sale

TB & JOHNES

TB Status: **C10**, (Triennial Testing, last whole herd test 2016)
Johnes: All Animals being sold tested clear

ANIMAL HEALTH All Sale bulls have been drenched with Scanda (oral) and injected with Cydectin, copper capsule prior to sale

GRAZING Grazing is available for a limited period only while transport arrangements are made. Grazing arrangement must be made with RLL office on day of sale
All deer must be insured
PLEASE NOTE ALL CARE NO RESPONSIBILITY

INSURANCE Transit and Livestock Insurance can be arranged by the Auctioneers who recommend these insurances to all purchasers
FMG will be available on the day

BULL INSPECTION Prospective buyers are welcome to view animals prior to sale day
Please make appointments with Murray or Jim from Connemara or Craig from RLL
Bulls will be available for viewing from 1pm on Sale Day

VELVET Velvet from sale bulls will be on display on sale day and remains the property of the vendor

REFRESHMENTS Please stay and enjoy a drink at completion of the sale

Connemara young deer
Industry benchmark

Young Deer: Deer 3 years old or younger (by industry standard). Growth rates in this report assume deer are 18 months old or less.

Average growth rate for young deer: grams per day from November 25th to slaughter, assuming birth weight of 10kg and dress out of 55%.

How to read the industry benchmarks

The benchmarks show the overall industry trend for young deer.

They are a broad representation because they are made up of all deer farming systems and all deer genetics. Keep this in mind when comparing your deer with them.

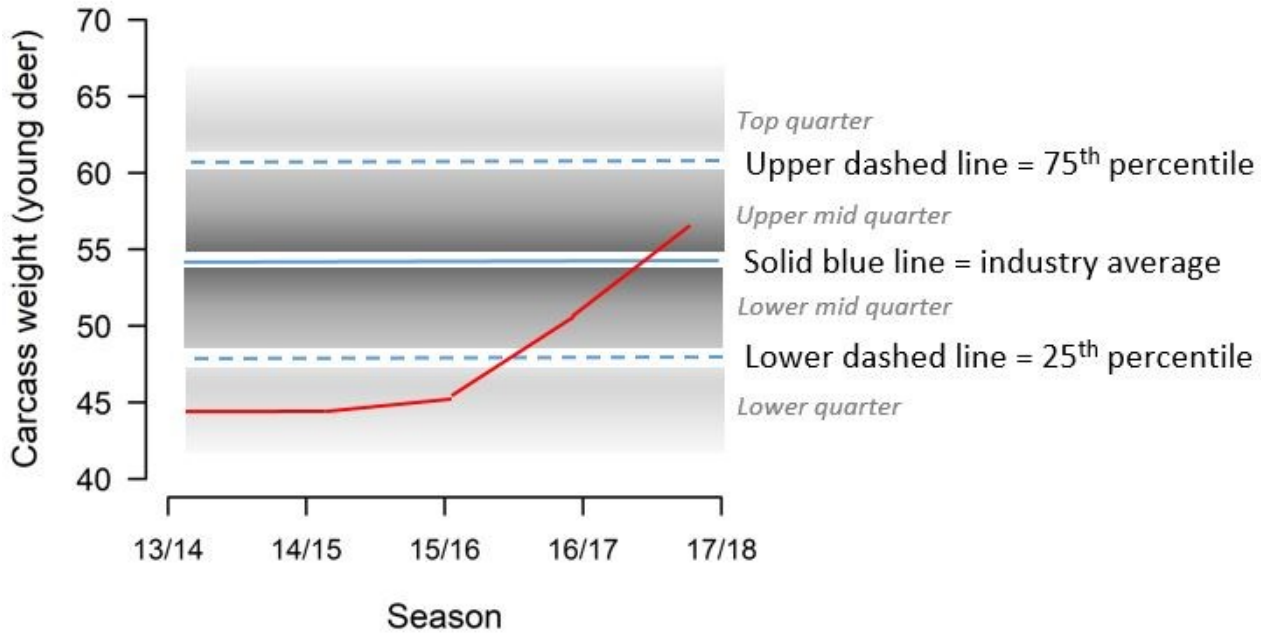
Using carcass weight as an example:

The carcass weights for the seasons' young deer (around 220,000 in 2017/18) are grouped together then divided into quarters from heaviest to lightest by the blue lines.

The bottom blue line (dashed) separates the lower quarter (lightest 25% of carcasses) from the lower-mid quarter (26-50%).

The middle blue line is the industry average.

The top blue line (dashed) separates the top quarter (heaviest 25% of carcasses) from the upper mid quarter (51-74%).



So in the example above the red line shows carcass weights from a farm were in the lightest quarter of all young carcasses in 2013/14, 14/15, and 15/16. But in 2016/17 they were heavier, falling in the lower mid quarter of industry production. Then in 2017/18 they were heavier again and passed the industry average carcass weight, but did not reach the heaviest 25% bracket.
